VOLUME XXXV

TOMBSTONE, COCHISE COUNTY, ARIZONA, SUNDAY, JUNE 13, 1915

NO. 82

ONE HUNDRED YEARS AGO SAW WATERLOO.

June 18 will create worldwide interest this year because just a century will have elapsed since Napoleon met his defeat at Waterloo. The photographs are those of Wellington, the mound commemorating the battle of Waterloo and Napoleon going into exile.

LOOKING BACKWARD 24 YEARS IN TOMBSTONE

Interesting Items that Appeared in the "Prospector," this Date, 1891; Reminiscent of the Pioneer Days

The high winds of the past two days are a forerunner of rain, so say the weather prophets.

The fear that the jury would hang in the Shankland case dispelled this morning when shortly after eating a meal at the Can Can the jury brought in a verdict of manslaughter. When told that the jury had found a verdict he remarked: "I'll be \$50 its guilty." When the verdict was announced he did not show any outward indication of his feelings within.

What are we going to do on the Fourth of July?

Frank Hare and wife returned home today after a long absence in the east.

Whipple is to be abandoned and thus does Tucson get even with Prescott.

The killing yesterday of Geronimo at Benson keeps the week's record up to the top notch.

Our correspondent at Dragon writes that there is quite a little life in mining matters over that way. Bell and Stephens shipped three cases of ore from the Golden Rule mine last week. The S. P. company have a camp at Dragon and are running a new survey between the summit and Ochoa with a view of moving the present track out of the wash and making an easier grade.

LARGE ENROLLMENT AT U. OF A. COLLEGE IN MINES

Attracted by the Prosperous Mining Outlook Through The State

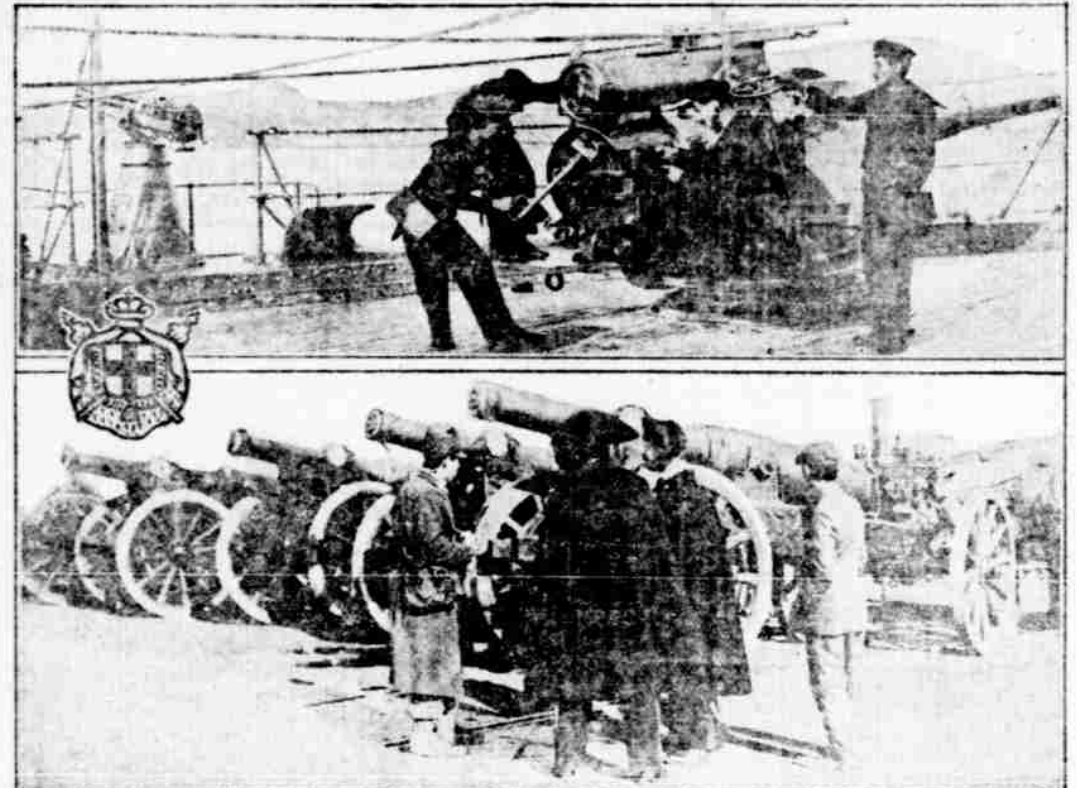

A large enrollment in the college of mines of the University of Arizona is an assured thing for the fall opening. There are at present about 200 undergraduates of other mining schools in Arizona working for the summer and many of them have already signified their intention of finishing their work at the state university.

They are attracted by the prosperous condition of the mining industry in the state and by the new features added to the college of mines work for new year.

A peculiarly attractive feature to be added in the application of the Gary system to mining education. This is impossible to apply in other mining colleges but owing to the advantages geographical location of Tucson it is to be put in vogue at the University of Arizona.

By this system the mining students in the senior year will use the field as their laboratory approximately half of time and their work will be in the actual operations at successful mines. This gives decided advantages in teaching the application of the theory to practice as well as giving the students a much broader and practical training. The university fears no competition on its new feature as it is the only mining school in the United States so situated that this system may be used.

ITALY'S FRESH FORCES MAY DECIDE WAR.

Photos by American Press Association.
With 3,500,000 men at her call and a navy ranking sixth in size, Italy is indeed a serious element in the European conflict. Photographs show gunners on an Italian warship and heavy artillery now being used against Austria.

AN INTERESTING ACCOUNT OF AUTO TOUR

Judge A. C. Lockwood Describes Trip; "Can't Beat Tombstone's Climate"

On the last lap of their journey to San Francisco, will give maps and information to tourists from other states gratis. Speaking of weather, we certainly chose an ideal time for a trip. We have not lost a minute, either on the road or at the fairs, through bad weather.

But one needs warm underclothes in San Francisco all the year, and an overcoat in the evening.

When it comes to describing the fair at San Francisco, I am at loss for words. It simply can't be done. While I would hardly go so far as to advise one to mortgage the old homestead or sell the kitchen stove to see it, yet any one who can possibly afford it will never regret the cost in time or money spent on a trip to San Francisco this year.

But when it's climate—while of course a change to the seashore is pleasant for a time, I have yet to see the place which has an all the year 'round climate equal to Tombstone, and I'll be glad to see the Old Camp looming on the horizon again.

Sincerely,
A. C. LOCKWOOD.

distance to San Francisco in a little over three days.

Our trip back was down the San Joaquin valley. The roads are even better than the coast route, but the scenery is not so interesting, though there are many pretty towns.

The weather, especially around Tulare and Bakersfield, was much like Arizona. The Tejon pass is long and in some places rather steep, but not difficult. It is said to be better than the Tehachapi pass. Coming down Boquet Canyon, run slowly. The road is good but narrow, with many curves and much traffic.

The Auto Club of California, in San Francisco, will give maps and information to tourists from other states gratis. Speaking of weather, we certainly chose an ideal time for a trip. We have not lost a minute, either on the road or at the fairs, through bad weather.

But one needs warm underclothes in San Francisco all the year, and an overcoat in the evening.

When it comes to describing the fair at San Francisco, I am at loss for words. It simply can't be done. While I would hardly go so far as to advise one to mortgage the old homestead or sell the kitchen stove to see it, yet any one who can possibly afford it will never regret the cost in time or money spent on a trip to San Francisco this year.

But when it's climate—while of course a change to the seashore is pleasant for a time, I have yet to see the place which has an all the year 'round climate equal to Tombstone, and I'll be glad to see the Old Camp looming on the horizon again.

CONSTRUCTION FOR AJO ROUTE TO COMMENCE SOON

BISBEE, June 11.—The bid for the construction of the new railroad which is to be built from Gila Bend on the Southern Pacific to the New Cornelia mine, west of Tucson 130 miles, were opened yesterday at Warren and it is expected that the contract will be awarded by the middle of this week.

It is the intention of the New Cornelia company to have all the material ordered and delivered at Gila Bend so that it will be the first traffic over the new line.

U.S. AGENTS OF MEXICO CHIEFS CLASH

Representatives of Carranza and Maytorena In Pistol Duel on U. S. Soil

News of a double killing at Washington Camp, about 21 miles south of Patagonia, near the Mexican line, was brought to Tombstone last night by A. F. Parker the insurance man, who returned from there yesterday.

The trouble arose when a representative of Carranza, was over on the American side at Washington Camp, a mining town, recruiting soldiers for the cause of Carranza, and a secret service man of Maytorena, who had been trailing the Carranza agent, met and exchanged shots. As a result the officer was killed and the Maytorena agent was shot through the abdomen and was not expected to live. The trouble occurred Thursday, and considerable excitement was stirred up at the mining camp, by adherents of both sides. Washington Camp is on the line in Santa Cruz county and most of the population is Mexican.

ARIZONA WILL PLAY WHILE EAST SHIVERS IN NOVEMBER

PHOENIX, June 12.—While the east is covered with snow neck deep, Arizona will be holding its annual fair Nov. 15-20.

The setting of the date later than usual this year is due to the fair commission's desire to give the state publicity, that is, letting the outside world know the baby state is holding its fair at the time when such a thing would be impossible in most places.

Homer R. Wood of Prescott and J. R. Henderson of Bisbee, members of the fair commission, are here today meeting in the office of Secretary Tom Shaughnessy to consider the budget for the 1915 fair, authorizing prizes, premiums, etc.

One of the matters to be considered today is that of setting aside one full day of fair week solely for motorcycle events.

HOLD-UP MAN CONFESSES TO CRIME

Makes Complete Confession to Deputy Sheriff's From Beginning to End

BISBEE, June 12.—Armed bandits, who were arrested by Deputy Sheriff Blakefield for being implicated in the robbery of the Leeson store at McNeal on Wednesday night, yesterday afternoon in the presence of witnesses, made a confession of the affair from beginning to end. The statement was made in Judge Totman's Office in the presence of Deputy Sheriff Blakefield, Constable Perry Polly, Frank Thomas and Probation Officer Howe.

Hungo stated that about five or six days ago a man who gave his name as Emil Jackson came to his ranch and they decided to rob the store. Jackson, as headed for the Mexican line, and all officers has been notified.

TOMBSTONE TOWN TOPICS TERSELY TOLD

From Huachuca
Miss Nella Thiel returned home today from a several week's visit in the Huachuca, the guest of her friend, Miss Willie Pyatt.

Catholic Church
Sunday there will be special services in honor of the Sacred Heart of Jesus. First mass at 8 a. m. High mass with sermon at 9:30 a. m. Confessions will be heard at any time. Next Monday I will leave for Benson where I will remain two weeks.

Rev. Joseph Maynemilc, M. F.
From Gleason
C. I. Van Meter and Constable Lyle Gibson were visitors in the county seat today from Gleason on business matters.

FOR SALE—20 shares of Denn-Arizona stock at prevailing market. Address "G" Prospector Office.

PROGRESSIVE BUTCHER INSTALL COMPLETE COLD STORAGE

New Cold Storage Plant for Tombstone, Insuring Best of Service

As an evidence of their faith in the ultimate growth of Tombstone and an indication of their progressiveness and enterprise, McCargo and Preston, of the Tombstone market, have just installed an up-to-date refrigerating plant representing an outlay of several hundred dollars.

The new cold storage plant has a capacity of several tons and is cooled by the ammonia process. There are several spacious cooling apartments, the last apartment reaching into the retail sales room, is made entirely of glass and in this the meat and ham, sausages, etc. are kept ready to be delivered to the customers. Considerable credit is due Messrs. McCargo and Preston for their energy in giving the people of Tombstone a modern refrigerating plant which insures clean, sanitary and pure meat to their many patrons.

From Johnson
T. Lindsay of Johnson Camp was among the visiting mining men in the county seat today on business matters, returning home in the afternoon.

From Tucson
J. Goyette of Tucson was among the arrivals in the city yesterday on business matters, having made the trip in his auto.

From Bisbee
M. Doyle, better known as "Biddy" by his friends, accompanied by his niece, Miss Alice Wickstrom, arrived in the county seat yesterday from Bisbee on a several days visit with friends.

From Florence
Deputy Sheriff Percy Bowden returned home last evening from Florence, where he went to deliver three prisoners to the state penitentiary, to begin serving their sentences.

Slightly Improved
Word from the sick room of E. H. Reeves at the hospital at Bisbee, today is to the effect that his condition is slightly improved today, which is pleasing news to his Tombstone friends. Mrs. Julia Axtell, sister of Mr. Reeves is at the bedside.

HOUSE DISPOSES OF LAND BILL

New Irrigation Bill; Present Law Unconstitutional Says Atty. General

PHOENIX, June 11.—The House finally disposed of the land bill on second reading and the bill, as amended has been ordered printed.

A majority of the members are opposed to turning over to a land commissioner the naming of appraisers of improvements, preferring that such function be performed by a board named by the chairman of the supervisors of the county in which the land is located.

The senate approved Colter's irrigation district bill, after adopting amendments, and the bill was ordered re-crossed. During the debate it developed that the attorney general had given an opinion that the present irrigation law, on the statute books, was not only cooperative but was unconstitutional.

UNIQUE CABINET TO CONTAIN ARIZONA'S CONSTITUTION

PHOENIX, June 12.—A unique case which is to contain the original constitution of the state of Arizona and other articles of historical interest, was received at the state house yesterday.

The case is made from native woods and is the work of two prisoners at the state prison. Ironwood, ash, mesquite and other woods were used in the construction of the base, which is highly polished and makes a handsome sitting for the important document. In the center of the panel is the word "Arizona," and the dates of the constitutional convention and of Arizona's admission to statehood.

The pen which was used to sign the constitution, the original inkwell, sealers, ruler and the pedestal, which are now in the governor's office, will be placed in the case with the constitution. The top part of the case will be of plate glass. The case will be placed either in the lobby on the second floor or in the governor's office.
